Cities and Towns of the State.

MY DEAR SIR,

Is the registration of deaths and causes of deaths complete and satisfactory in your town? If not, please suggest any deficiencies of which you are aware, whether *all* deaths are returned to the undertakers, whether the undertakers themselves return them promptly and accurately to the clerks, whether causes of death are reported by the physicians in all cases, etc., etc.

The Board will be glad to have as *full* and extended remarks as possible. If you have no suggestions to offer, please return the circular with that statement.

In behalf of the State Board of Health,

Very respectfully yours,

CHAS. F. FOLSOM, M.D.,

Secretary.
